§113. Issuance and Renewal of Licensure (Formerly §111)

A. The board recognizes two distinct types of licensure. Applicants may be issued a regular license or a provisional license based on compliance with requirements stated in the Louisiana Dietitian/Nutritionist Practice Act and described in these regulations. The board shall issue a license to any person who meets the requirements upon payment of the license fee prescribed.

B. Regular License

1. The board may issue a regular license to any dietitian/nutritionist who qualifies in accordance with the requirements of R.S. 37:3086(A), (B) or (C), and who practices in Louisiana, whether resident or nonresident, unless otherwise exempted as stated in R.S. 37:3093 of the Dietetic/Nutritionist Practice Act and these regulations. The board will send each applicant whose credentials have been approved a license.

C. Provisional License

1. A provisional license shall permit the holder to practice only under the direct supervision of a licensed

dietitian/nutritionist. The board may issue a provisional license to any dietitian/nutritionist who meets the following requirements:

a. shall have earned a baccalaureate or post-baccalaureate degree granted by a U.S. regionally accredited college or university, or foreign equivalent, and meet minimum academic requirements accredited by ACEND;

b. the board may issue a provisional license to a person before he has taken the examination prescribed by the board;

c. a provisional license may be issued for a period not exceeding one year and may be renewed annually for a period not to exceed two consecutive years upon payment of an annual fee and presentation of evidence satisfactory to the board that applicant is meeting the supervision requirements and the continuing education requirement of at least 15 hours of continuing education per license year.

D. Supervision of Provisional Licensed Dietitian

1. The purpose of this Section is to set out the nature and scope of the supervision provided for provisional licensed dietitians/nutritionists.

2. To meet initial licensure and license renewal requirements, a provisionally licensed dietitian/nutritionist shall practice under the direct supervision of a licensed dietitian/nutritionist. *Direct supervision* is defined as a licensed dietitian/nutritionist providing sufficient guidance and direction to enable a provisional licensed dietitian/nutritionist to perform competently. The supervising licensee needs to be readily available in person or by telecommunications and will review the provisionally licensed dietitian/nutritionist's work quarterly and submit to the board annually on a form provided by the board a written report that the applicant is in the process of meeting the experience requirements in anticipation of taking the examination.

E. Upgrading a Provisional License

1. In order to upgrade to a regular license, the provisionally licensed dietitian/nutritionist shall submit to the board a written request, proof of successful completion of the registration examination administered by CDR or evidence of current registration with CDR, as well as the upgrade fee.

2. When the upgrade occurs, the licensee shall become subject to the renewal requirements for a regular licensed dietitian/nutritionist.

F. License Certificates

1. The board shall prepare and provide to each licensee a license certificate and license identification card.

2. Official license certificates shall be signed by the board chairman, vice-chairman, and secretary-treasurer and be affixed with the seal of the board.

3. Any license certificate and license identification card issued by the board remains the property of the board and must be surrendered to the board on demand.

4. The license certificate must be displayed in an appropriate and public manner as follows:

a. shall be displayed in the primary place of employment of the licensee; or

b. in the absence of a primary place of employment or when the licensee is employed at multiple locations, the licensee shall carry a current, board issued license identification card.

5. Neither the licensee nor anyone else shall display a photocopy of a license certificate or carry a photocopy of a license identification card in lieu of the original license certificate or license identification card.

6. Neither the licensee nor anyone else shall make any alteration on a license certificate or license identification card issued by the board.

7. The board shall replace a lost, damaged or destroyed license certificate or ID card upon receipt of a written request from the licensee and payment of the license replacement fee.

8. The board, upon receipt of a written request, shall reissue a license certificate and/or license identification card in the case of name changes. Requests shall be accompanied by payment of the license replacement fee and appropriate documentation reflecting the change.

G. Abandonment of Application. An applicant shall be deemed to have abandoned the application if the requirements for licensure are not completed within one year of the date on which the application is received. An application submitted subsequently to an abandoned application shall be treated as a new application.

H. Disapproved Applications. The board shall disapprove the application if the applicant:

1. has not completed the requirements of §103 of these regulations including academic and experience requirements;

2. has failed to pass the examination prescribed by the board;

I. Renewal of Licensure

1. At least 30 days prior to the expiration date of the license, the licensee shall be sent written notice of the amount of renewal fee due, which must be submitted with the required fee.

2. Licensee's application for renewal must be submitted on or prior to the expiration date in order to avoid the late renewal fee. Failure to receive renewal notice shall not be justification for late or non-renewal.

3. The board shall not renew the license of a person who is in violation of the act, or board rules at the time of application for renewal.

4. Licensed Dietitian/Nutritionist

a. Licenses will expire annually on June 30.

5. Provisional License

a. Licenses will expire annually on June 30.

b. Applicants receiving an initial license in the last quarter of the fiscal year (April, May, June) will not be required to renew or provide proof of continuing education until the following one year licensing period.

6. Renewal license identification cards and/or renewal validation documents shall be furnished to each licensee who meets all renewal requirements by the expiration date.

7. The board may provide for the late renewal of a license upon the payment of a late fee within 60 days of the expiration date, July 1 through August 31.

a. If the license has been expired for 60 days or less, the license may be renewed by submitting the license renewal with all appropriate fees and documentation to the board, on or before the end of the 60-day grace period.

8. A person whose license has expired may not use the title of dietitian or nutritionist or present or imply that he or she has the title of "licensed dietitian/nutritionist" or "provisional licensed dietitian/nutritionist" or any abbreviation of these titles. Additionally, the person with an expired license may not continue to engage in the practice of dietetics and/or nutrition until the expired license has been renewed.

9. Inactive Status. Inactive status may be granted to licensees who are retired or who do not practice dietetics/nutrition during the fiscal year, July 1-June 30.

a. Licensees on inactive status may retain their license by payment of the annual renewal fee.

b. These licensees shall complete the affidavit provided at the time of licensure renewal.

c. Licensees on inactive status or who are retired shall not supervise individuals or otherwise engage in the practice of dietetics/nutrition.

d. In order to resume the practice of dietetics/nutrition, licensees on inactive status shall demonstrate completion of 5 clock hours of continuing education in the area of licensure for each year that inactive status was maintained. In addition, a letter requesting a change to active status must be submitted to the board office prior to resuming the practice of dietetics/nutrition.

10. Continuing Education Requirement for Renewing License

a. For renewal of a regular dietitian/nutritionist license, licensees must submit proof of holding current CDR registration. The board recognizes the CDR PDP system as fulfilling the continuing education requirement for licensure renewal.

b. For renewal of provisional license, provisional licensees must submit proof of at least 15 hours of continuing education per license year.

11. Renewal license identification cards and/or renewal validation documents shall be furnished to each licensee who meets all renewal requirements by the expiration date.

12. The board may provide for the late renewal of a license upon the payment of a late fee within 60 days of the expiration date, July 1 through August 31.

A. In a public health emergency lawfully declared as such by the governor of Louisiana, the requirement for a Louisiana license as a licensed dietitian/nutritionist or provisional licensed dietitian/nutritionist may be suspended by the board at that time to those out of state licensed dietitians/nutritionists or provisional licensed dietitian/nutritionists, whose licenses, certifications or registrations are current and unrestricted in another jurisdiction of the United States, for a period of time not to exceed the duration and scope of R.S. 29:769(E), as more particularly set forth in this rule.

C. A licensed dietitian/nutritionist or provisional licensed dietitian/nutritionist not licensed in Louisiana, whose licenses and CDR registrations are current and unrestricted in another jurisdiction of the United States, may gratuitously provide dietetic/nutrition services if:

1. the licensed dietitian/nutritionist or provisional dietitian/nutritionist has photo identification and a license to verify a current and unrestricted license, certification or registration in another jurisdiction of the United States, and properly registers with the board prior to providing dietetic/nutrition services in Louisiana as follows:

D. The authority provided for in the emergency rule shall be applicable for a period of time not to exceed 60 days at the discretion of the board, with the potential extension of up to two additional periods not to exceed 60 days for each extension as determined appropriate and necessary by the board.

E. All interested licensed dietitian/nutritionists or provisional licensed dietitian/nutritionists shall submit a copy of their respective current and unrestricted licenses, or CDR registrations issued in other jurisdictions of the United States and photographic identification, as well as other requested information, to the Louisiana Board of Examiners in Dietetics and Nutrition for registration with this agency prior to gratuitously providing dietetic/nutrition services in Louisiana.

F. Should a qualified licensed dietitian/nutritionist or provisional licensed dietitian/nutritionist registered with the board thereafter fail to comply with any requirement or condition established by this Rule, the board may terminate his or her board registration upon notice and hearing.

G. In the event a licensed dietitian/nutritionist or provisional licensed dietitian/nutritionist fails to register with the board, but practices dietetics and/or nutrition, whether gratuitously or otherwise, then such conduct will be considered unlawful practice of dietetics and nutrition and prosecuted accordingly.

 - a. The dietetics practitioner must not be convicted of a crime under the laws of the United States, whether a felony or a misdemeanor, an essential element of which is dishonesty.
 - b. The dietetics practitioner must not be disciplined by a state for conduct that would violate one or more of these principles.

Responsibilities to Clients

8. The dietetics practitioner recognizes and exercises professional judgment within the limits of his or her qualifications and collaborates with others, seeks counsel, or makes referrals as appropriate.
9. The dietetics practitioner treats clients and patients with respect and consideration.
 - a. The dietetics practitioner provides sufficient information to enable clients and others to make their own informed decisions.
 - b. The dietetics practitioner respects the client's right to make decisions regarding the recommended plan of care, including consent, modification, or refusal.
10. The dietetics practitioner protects confidential information and makes full disclosure about any limitations on his or her ability to guarantee full confidentiality.
11. The dietetics practitioner, in dealing with and providing services to clients and others, complies with the same principles set forth above in "Responsibilities to the Public" (Principles #3-7).

Responsibilities to the Profession

12. The dietetics practitioner practices dietetics based on evidence-based principles and current information.
13. The dietetics practitioner presents reliable and substantiated information and interprets controversial information without personal bias, recognizing that legitimate differences of opinion exist.
14. The dietetics practitioner assumes a life-long responsibility and accountability for personal competence in practice, consistent with accepted professional standards, continually striving to increase professional knowledge and skills and to apply them in practice.
15. The dietetics practitioner is alert to the occurrence of a real or potential conflict of interest and takes appropriate action whenever a conflict arises.

17. The dietetics practitioner accurately presents professional qualifications and credentials.

a. The dietetics practitioner, in seeking, maintaining, and using credentials provided by CDR, provides accurate information and complies with all requirements imposed by CDR. The dietetics practitioner uses CDR-awarded credentials (“RD” or “Registered Dietitian”; “DTR” or “Dietetic Technician, Registered”; “CS” or “Certified Specialist”; and “FADA” or “Fellow of the American Dietetic Association”) only when the credential is current and authorized by CDR.

b. The dietetics practitioner does not aid any other person in violating any CDR requirements, or in representing himself or herself as CDR-credentialed when he or she is not.

18. The dietetics practitioner does not invite, accept, or offer gifts, monetary incentives, or other considerations that affect or reasonably give an appearance of affecting his/her professional judgment.

Clarification of Principle:

a. Whether a gift, incentive, or other item of consideration shall be viewed to affect, or give the appearance of affecting, a dietetics practitioner’s professional judgment is dependent on all factors relating to the transaction, including the amount or value of the consideration, the likelihood that the practitioner’s judgment will or is intended to be affected, the position held by the practitioner, and whether the consideration is offered or generally available to persons other than the practitioner.

b. It shall not be a violation of this principle for a dietetics practitioner to accept compensation as a consultant or employee or as part of a research grant or corporate sponsorship program, provided the relationship is openly disclosed and the practitioner acts with integrity in performing the services or responsibilities.

c. This principle shall not preclude a dietetics practitioner from accepting gifts of nominal value, attendance at educational programs, meals in connection with educational exchanges of information, free samples of products, or similar items, as long as such items are not offered in exchange for or with the expectation of, and do not result in, conduct or services that are contrary to the practitioner’s professional judgment.

d. The test for appearance of impropriety is whether the conduct would create in reasonable minds a perception that the dietetics practitioner’s ability to carry out professional responsibilities with integrity, impartiality, and competence is impaired.

Responsibilities to Colleagues and Other Professionals

19. The dietetics practitioner demonstrates respect for the values, rights, knowledge, and skills of colleagues and other professionals.

a. The dietetics practitioner does not engage in dishonest, misleading, or inappropriate business practices that demonstrate a disregard for the rights or interests of others.

b. The dietetics practitioner provides objective evaluations of performance for employees and coworkers, candidates for employment, students, professional association memberships, awards, or scholarships, making all reasonable efforts to avoid bias in the professional evaluation of others.

C. All licensees shall be responsible for reporting any and all alleged misrepresentation or violation of the AND/CDR code of ethics and/or board rules to the board.

D. A failure to adhere to the above code of ethics, constitutes unprofessional conduct and a violation of lawful rules and regulations adopted by the board and further constitutes grounds for disciplinary action specified in R.S. 37:3090 of the Dietitian/Nutritionist Practice Act and these rules and regulations and also constitutes grounds for a denial of licensure or a renewal of licensure.

B. The board may refuse to issue a license, or suspend, revoke or impose probationary conditions and restrictions on the license of a person on a finding of any of the causes provided by Section 3090 of the Louisiana Dietetic/Nutrition Practice Act.

C. A suspended license shall be subject to expiration and may be renewed as provided in this section, but such renewal shall not entitle the licensee, while the license remains suspended and until he or she is reinstated, to engage in the practice of dietetics and/or nutrition, or in any other conduct or activity in violation of the order of judgment by which the license was suspended. If a license is revoked on disciplinary grounds and is reinstated, the licensee, as a condition of reinstatement, shall pay the renewal fee and any late fee that may be applicable.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Registered Dietitians/Nutritionists

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule change will result in an estimated one-time SGR expenditure of \$1,600 in FY 19 for the Louisiana Board of Examiners in Dietetics and Nutrition (LBEDN) to publish the proposed rule changes in the Louisiana Register and upload the rule revisions to the LBEDN website.

The proposed rule changes amend some rule titles and make technical revisions to improve grammar, as well as add specificity and clarification throughout the administrative rules for Registered Dietitians and

Nutritionists. More substantive revisions include guidelines for the practice of telenutrition, the creation of an inactive license status, and the revision of the LBEDN fee schedule to increase certain license and license renewal fees. These changes fall within the current regulatory scope of the LBEDN and are not anticipated to carry any additional costs.

The proposed rule change will not result in any additional expenditures or savings for local governmental units.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule changes will increase SGR collections for the LBEDN by an estimated \$49,995 annually. Fee revisions in the proposed rule changes include the following: increasing the application and licensure fee by \$55, from \$90 to \$145; increasing the provisional application and licensure fee by \$45, from \$95 to \$140; increasing license renewal fees by \$30, from \$60 to \$90; increasing late renewal fees by \$55, from \$85 to \$140; and increasing application reinstatement fees by \$60, from \$90 to \$150. Based upon application and renewal activity from FY 17, the aggregate SGR increase from the fee revisions is estimated to total \$49,995 to the extent future application and renewal activity is consistent with historical activity.

Furthermore, the proposed rule changes include a new inactive license status that has an accompanying fee of \$45. Persons seeking inactive status would pay \$45 in lieu of a license renewal fee. To the extent persons pay the \$45 in lieu of the existing \$60 renewal fee, the LBEDN would realize a revenue decrease of \$15 per license. Furthermore, to the extent persons pay \$45 for an inactive license in lieu of the new license renewal fee of \$90, the LBEDN would realize a revenue decrease of \$45 per license. The aggregate impact of the inactive fee on the LBEDN's SGR collections is indeterminable and dependent upon the number of persons seeking inactive status, as well as the timing of when such persons enter into inactive status.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule changes increase license fees for practitioners regulated by the LBEDN by an estimated \$49,995 annually (See Part II, Paragraph 1). Furthermore, persons holding Licensed Dietitian or Nutritionist licenses who no longer wish to engage in active practice may change their license status to inactive, and may retain their licenses while also paying a lower fee relative to the license renewal fee (See Part 2, Paragraph 2).

Furthermore, the proposed rule changes include a framework for the delivery of telenutrition services, which may allow Licensed Dietitians or Nutritionists to deliver services in addition to services delivered in a clinical setting.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

To the extent Licensed Dietitians or Nutritionists begin delivering telenutrition services as a result of the proposed rule changes, those practitioners delivering telenutrition services may gain competitively over those who do not. Furthermore, the addition of telenutrition services may increase employment opportunities for practitioners that may have otherwise been limited to practicing in clinical settings.

PROFESSIONAL AND OCCUPATIONAL STANDARDS

11. The dietetics practitioner, in dealing with and providing services to clients and others, complies with the same principles set forth above in "Responsibilities to the Public" (Principles #3-7).

Responsibilities to the Profession

12. The dietetics practitioner practices dietetics based on evidence-based principles and current information.

13. The dietetics practitioner presents reliable and substantiated information and interprets controversial information without personal bias, recognizing that legitimate differences of opinion exist.

14. The dietetics practitioner assumes a life-long responsibility and accountability for personal competence in practice, consistent with accepted professional standards, continually striving to increase professional knowledge and skills and to apply them in practice.

15. The dietetics practitioner is alert to the occurrence of a real or potential conflict of interest and takes appropriate action whenever a conflict arises.

The dietetics practitioner uses CDR-awarded credentials ("RD" or "Registered Dietitian"; "DTR" or "Dietetic Technician, Registered"; "CS" or "Certified Specialist"; and "FADA" or "Fellow of the American Dietetic Association") only when the credential is current and authorized by CDR.

b. The dietetics practitioner does not aid any other person in violating any CDR requirements, or in representing himself or herself as CDR-credentialed when he or she is not.

18. The dietetics practitioner does not invite, accept, or offer gifts, monetary incentives, or other considerations that affect or reasonably give an appearance of affecting his/her professional judgment.

Clarification of Principle:

a. Whether a gift, incentive, or other item of consideration shall be viewed to affect, or give the appearance of affecting, a dietetics practitioner's professional judgment is dependent on all factors relating to the transaction, including the amount or value of the consideration, the likelihood that the practitioner's judgment will or is intended to be affected, the position held by the practitioner, and whether the consideration is offered or generally available to persons other than the practitioner.

b. It shall not be a violation of this principle for a dietetics practitioner to accept compensation as a consultant or employee or as part of a research grant or corporate sponsorship program, provided the relationship is openly disclosed and the practitioner acts with integrity in performing the services or responsibilities.

c. This principle shall not preclude a dietetics practitioner from accepting gifts of nominal value, attendance at educational programs, meals in connection with educational exchanges of information, free samples of products, or similar

items, as long as such items are not offered in exchange for or with the expectation of, and do not result in, conduct or services that are contrary to the practitioner's professional judgment.

d. The test for appearance of impropriety is whether the conduct would create in reasonable minds a perception that the dietetics practitioner's ability to carry out professional responsibilities with integrity, impartiality, and competence is impaired.

Responsibilities to Colleagues and Other Professionals

19. The dietetics practitioner demonstrates respect for the values, rights, knowledge, and skills of colleagues and other professionals.

a. The dietetics practitioner does not engage in dishonest, misleading, or inappropriate business practices that demonstrate a disregard for the rights or interests of others.

b. The dietetics practitioner provides objective evaluations of performance for employees and coworkers, candidates for employment, students, professional association memberships, awards, or scholarships, making all reasonable efforts to avoid bias in the professional evaluation of others.

C. All licensees shall be responsible for reporting any and all alleged misrepresentation or violation of the AND/CDR code of ethics and/or board rules to the board.

D. A failure to adhere to the above code of ethics, constitutes unprofessional conduct and a violation of lawful rules and regulations adopted by the board and further constitutes grounds for disciplinary action specified in R.S. 37:3090 of the Dietitian/Nutritionist Practice Act and these rules and regulations and also constitutes grounds for a denial of licensure or a renewal of licensure.

Chapter 5. Procedural Rules

§501. Authority

A. Consistent with the legislative purpose enumerated in R.S. 37:3081-~~3093~~3094, and to further protect the safety and welfare of the public of this state against unauthorized, unqualified and improper practice of dietetics and nutrition, the following rules of procedure are established under this board's specific rulemaking authority of R.S. 37:3085 and R.S. 49:952 et seq.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:3081-3093; R.S. 36:259(Q).

HISTORICAL NOTE: Promulgated by the Department of Health and Human Resources, Office of the Secretary, LR 10:12 (January 1984), promulgated by the Department of Health and Hospitals, Board of Examiners in Dietetics and Nutrition, LR 25:1095 (June 1999).

§503. Investigation of Complaints

A. The board is authorized to receive complaints from any person against dietitian/nutritionist licensees or applicants or against persons engaged in the unauthorized and unlicensed practice of dietetics and nutrition. Any complaint bearing on a licensee's professional competence, conviction of a crime, unauthorized practice, violation of provisions of the ~~Louisiana Dietitian~~Dietetic/Nutritionist Practice Act or board rules and regulations, mental competence, neglect of practice or violation of the state law or ethical standards where applicable to the practice of dietetics and nutrition, should be submitted to the board.

B. Once a ~~written and signed~~ complaint is submitted on the forms provided by the board, received from an individual, the board will initiate a review of the allegations. The board may dispose of the complaint informally through correspondence or conference with the individual and/or the complainant which may result in a consent agreement and order. If the party stipulates to the complaint and waives his or her right to formal hearing, the board may impose appropriate sanctions without delay. If the board finds that a complaint cannot be resolved informally, the written complaint will be forwarded to the board's designated complaint investigation officer (hereinafter referred to as the CIO) for investigation.

C. The board's CIO shall have authority to investigate the nature of the complaint against a licensee through

conference and correspondence directed to those parties or witnesses involved. The officer shall send the involved licensee notice of the investigation, containing a short summary of the complaint. All letters to the involved licensee, the complainant, or any other witness, shall be sent by certified mail, with the designation "personal and confidential" clearly marked on the outside of the envelope.

D. The CIO shall conclude the investigation as quickly as possible without compromising thoroughness. Unless good cause is shown by the CIO satisfactory to the board, which may extend the time for the investigation, the investigation and recommended action shall be completed within 60 days of the date the CIO first receives the complaint.

E. The CIO shall make a recommendation to the board for disposition by informal hearing, formal hearing or dismissal of the complaint. When the CIO's recommended action might lead to denial, suspension, or revocation of the certificate, the board shall immediately convene a formal adjudication hearing, pursuant to R.S. 37:3090(B) of the Dietetic/Nutrition Practice Act and §501 and §503 of these regulations. The CIO may determine that the licensee's explanation satisfactorily answers the complaint and may recommend to the board that the matter be dismissed. The recommended remedial action or dismissal of the complaint shall be forwarded to the involved complainant and licensee.

F. The CIO may also recommend to resolve the complaint through a consent agreement and order entered into by the licensee and the complainant. If the order contains any agreement by the licensee to some remedial course of action, the agreement must be signed by the complainant, the licensee and the board. The CIO will make note of any settlement arrived at between the complainant and the licensee, but such a settlement does not necessarily preclude further disciplinary action by the board.

G. If the CIO's recommendation for informal hearing is accepted by the board, the officer shall notify the licensee of the time and place of the conference and of the issues to be discussed. The licensee shall appear on a voluntary basis. The licensee shall be advised that the hearing will be informal, no lawyers will be utilized and no transcript of the hearing made. Any witnesses used will not be placed under oath, and no subpoenas will be issued. The licensee shall be informed that any statements made at the informal hearing may not be used or introduced at a formal hearing, unless all parties consent, in the event the complaint cannot be resolved informally. If the licensee notifies the CIO that he does not wish such an informal hearing, none shall be held. In that event, the CIO shall recommend to the board the initiation of a formal disciplinary hearing.

H. If the investigation disclosed any of the following:

1. that the complaint is sufficiently serious to require formal adjudication;
2. the licensee fails to respond to the CIO's correspondence concerning the complaint;

3. the licensee's response to the CIO's letter discloses that further action is necessary; an informal hearing is held but does not resolve all the issues; or the licensee refuses to comply with the recommended remedial action, the CIO shall recommend to the board the initiation of a formal disciplinary hearing.

I. In any recommended action submitted to the board by the CIO, the recommended action should be submitted in brief, concise language, without any reference to the particulars of the investigation, or any findings of fact or conclusions of law arrived at during the investigative process.

J. The board shall also have authority to delegate to the CIO the investigation of any alleged violations of R.S. 37:3090(A), prior to board action on such alleged violations. In that event, the CIO shall submit to the board the complete details of the investigation, including all facts and the complete investigation file, if requested by the board. Final authority for appropriate action rests solely with the board.

K. At no time shall the CIO investigate any case as authorized by the board or §503 where said officer has any personal or economic interest in the outcome of the investigation, or is personally related to or close friends with the complainant, the individual, or any of the involved witnesses. In such event, the officer shall immediately contact the board, who shall have authority to appoint a CIO ad hoc for disposition of that case.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:3081-3093 and R.S. 36:259(Q).

HISTORICAL NOTE: Promulgated by the Department of Health and Human Resources, Office of the Secretary, LR 10:12 (January 1984), promulgated by the Department of Health and Hospitals, Board of Examiners in Dietetics and Nutrition, LR 25:1096 (June 1999), amended LR 37:2155 (July 2011), LR 41:1680 (September 2015).

§505. Conduct of Hearing

A. The board shall be authorized to conduct two types of hearings: compliance hearings and formal disciplinary hearings.

1. Compliance Hearing

a. The board will provide a compliance hearing to an applicant for ~~a regular or provisional licensure~~ whose application was ~~disapproved-rejected~~ by the board provided that the request for such compliance hearing is submitted to the board in writing pursuant to §111.C of these Rules and Regulations, providing such applicant requests a compliance hearing in writing within 30 days after the applicant receipt of-receives the notice of the disapprovalrejection. In which request the applicant shall state the opposition to the disapproved application. In the request for the compliance hearing, the applicant shall state the specific reasons for his or her opposition to the board's application rejection. Absent exceptional circumstances, as determined by the board, the compliance hearing shall be conducted within 90 days following the board's receipt of the hearing request. This time limitation applies to rejected applicants, as well as licensees with lapsed licenses.

b. A licensee, whose license is deemed expired because of a failure to timely renew, under R.S. 37:3088, shall be entitled to a compliance hearing, provided the licensee requests same in writing, within ten days after the receipt of the notice of the expired license; or in the event the licensee did not receive notice of the expired license within 30 days of the date upon which the license would have expired by operation of law.

~~c. Whenever possible, the board shall schedule a compliance hearing on a disapproved application in such a manner that the applicant is given an opportunity to present evidence of compliance and the board to rule thereon in sufficient time to allow the applicant to take the next scheduled examination, if the board decides in favor of the applicant. If this is not possible, and the board has reason to believe that the applicant's opposition has merit, the applicant shall be allowed to take the examination provisionally, pending the hearing and determination of the board. In no event shall the compliance hearing be conducted later than 30 days after requested. This time limitation applies to rejected applicants, as well as licensees with lapsed certificates.~~

d. The purpose and intent of the compliance hearing is to provide a forum for the applicant or licensee to present documentary evidence in the form of affidavits, court records, official records, letters, etc., along with under-oath testimony to establish that they do, in fact, meet the lawful requirements for the application or the retention of the license. The board shall have the authority to administer oaths, hear the testimony and conduct the hearing. No transcript of the hearing is required. The applicant or licensee may be represented by counsel, or may represent themselves in proper person.

e. In any compliance hearing, the burden shall be on the applicant or licensee to establish that ~~he or shethey~~ meets the criteria for licensure or that his or her ~~certificate~~ license was timely renewed.

f. Within 30 days after the compliance hearing, the board will forward its final decision, including findings of fact and conclusions of law, by certified mail, to ~~unsuccessful-denied~~ applicant or licensee.

g. Thereafter, the ~~unsuccessful-denied~~ applicant or licensee may apply for a rehearing, as provided in R.S. 49:959, subject to further judicial review, pursuant to R.S. 49:964, 965.

2. Formal Disciplinary Hearing

a. The board shall also be authorized to conduct formal disciplinary hearings pursuant to R.S. 37:3090.B. The board shall promptly notify the Attorney General, who is authorized and requested to appear on behalf of the State.

b. The hearing shall be held before the board only after the involved licensee is given at least 30 days notice by certified mail. The content of the notice, as well as the conduct of the hearing, shall be governed by R.S. 49:955, being further provided that the licensee be advised of his right to be represented by legal counsel; and that the board

PROFESSIONAL AND OCCUPATIONAL STANDARDS

shall arrange for a court reporter to make an accurate recording of all testimony presented at the hearing. By bringing a complaint, the client waives the privilege of confidentiality for the purposes of the hearing.

c. The rules of evidence, notice, authority to administer oaths, issue subpoenas, conduct depositions and control confidential or privileged information, will apply to the formal adjudication hearing in the form specified by R.S. 49:956.

d. It is the licensee's continuing obligation to keep the board informed of his whereabouts. Accordingly, if notice of the hearing cannot be delivered by mail because of a change of address and the new address is not provided to the board, the board may hold the hearing in the licensee's absence, after making reasonable efforts to obtain the licensee's new address.

e. When the licensee receives notice, he or she may file an answer to the notice denying some or all of the charges, or offering any explanation or assert whatever defense is deemed applicable.

f. For good cause shown, the board has discretion to extend or continue the time set for the hearing for such reasons as ill health, inability to obtain counsel, the complexities of the case, or such other matters deemed by the board to present good cause.

g. The board shall elect from its membership a person to act as Presiding Officer at the hearing, to make rulings on objections, the admissibility of evidence, and to insure that the conduct of the hearing proceeds without delay and pursuant to law. The other board members may not delegate their decision-making and fact-finding duties to the Presiding Officer; nor shall the Presiding Officer have any greater weight in the decision-making process. The board's findings of fact and conclusions of law shall be signed by the majority of the board finding those findings of fact and conclusions of law. Any board member disagreeing with those findings of fact and conclusions of law may also file in the record a dissent.

h. Any board member having reason to believe that he or she is biased or prejudiced against one of the parties to the proceeding or has a personal interest in the outcome shall immediately notify the remaining board members and request to be disqualified. Likewise, any party to such a hearing may file with the board an affidavit requesting a disqualification because of bias or personal interest. As soon as possible, but not later than the beginning of the hearing, the majority of the board must pass upon the requests for disqualification. The concerned board member shall not participate in the action to disqualify and shall not vote on the issue. If the board is quite certain that there is no merit to the requests for disqualification, the board will proceed with the hearing. However, any doubt should be resolved in favor of disqualification. In that event, the board should immediately contact the Governor to appoint a board member pro tem to replace the disqualified member for the hearing in progress only.

i. The parties to the hearing are urged to confer prior to the hearing through their respective counsel, or personally to attempt to reduce or simplify the issues to be heard. This procedure is not required. The board will, however, honor any stipulations arrived at between the parties as proven fact at the hearing. The purpose of the prehearing conference is to insure that the hearing is not unusually delayed by receiving testimony or other evidence on matters which are not seriously in dispute.

j. The board shall have discretion to consolidate one or more cases for hearing involving the same or related parties, or substantially the same questions of law or fact. The board may also grant separate hearings if such a joint hearing would be prejudicial to one or more of the parties. If hearings are to be consolidated, notice must be given to all parties in advance of the hearing.

k. The Presiding Officer shall consider a motion to modify or quash any subpoena issued in connection with the hearing, provided that such motion is filed, by registered mail, with the board not later than three days prior to the hearing date, or the date scheduled for the deposition. Possible grounds to quash or limit the subpoena include, but are not limited to, testimony or material protected by privilege of statute, regulation, or other law; burdensomeness that would not be justified in light of the evidence's importance to the case, undue hardship on a witness; vagueness; and immateriality.

l. The burden of proof rests upon the attorney general who is bringing the charge before the board. No sanctions shall be imposed or order be issued, except upon consideration of the whole record, as supported by and in accordance with reliable, probative and substantial evidence as cited in R.S. 49:957.

m. Any party or person deemed to be governed by or under the jurisdiction of R.S. 37:3081-3093, may apply to the board for a declaratory order or ruling in order to determine the applicability of a statutory provision or rule of this board to said party or person. The board shall issue the declaratory order or ruling in connection with the request by majority vote of the board, signed and mailed to the requesting party within 30 days of the request, except that the board may seek legal counsel or an attorney general's opinion in connection with the request, in which case the declaratory order or ruling may be issued within 60 days of its request.

n. Judicial review and appeal of any decision or order of the board shall be governed by R.S. 49:964, 965.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:3081-3093 and R.S. 36:259(Q).

Second Report to Oversight Committees

Summary of Testimony

Three licensees appeared for the Louisiana Board of Examiners in Dietetics and Nutrition's public hearing held on Thursday, September 28, 2018 at 8:30 a.m. The three licensees were all former board members: JoAnn Puls, Irene Gardemal, and Clare Miller. Ms. Puls suggested that the Board educate its licensees and recommended a newsletter to communicate. Ms. Puls suggested more transparency in the justification of the increase to renewal fees. Ms. Puls also recommended that the supervision of Provisional LDN's be more clearly defined. She also recommended that the Board no longer issue licensure ID cards to save costs. Ms. Gardemal suggested that the Board consider a reasonable fee and provide the licensees with an explanation of such. Additionally, Ms. Gardemal focused on the Board needing to reach out to the university academic programs, since she feels that that is the weak link of our systems. She feels that new graduates have no clue as to how licensure works and why. Ms. Miller suggested that the Board use the website more for getting the word out and include a section for public comments to be submitted online. Overall, the licensees expressed many concerns for the profession as a whole, noting that there is apathy in the profession, even to the point where the local dietetic associations are closing.

Summary of All Comments Received

Ms. Gardemal and Ms. Miller also submitted written comments during the designated public comment period. Additionally, a letter was received signed by Elizabeth Sloan, Brigett Scott, and Sherry Foret, faculty of Nicolls State University. The written comments included: opinions that the increase will create hardship on young dietitians and that the fee increase is too excessive; inquiries regarding financial statements; inquiry if the Board has researched or compared the proposed fees to other Board's fees; agreement with the creation of inactive license status; concern about the Board not making enough effort to solicit public comment; and requests for revision to the Code of Ethics.

Statement of Proposed Action Resulting from Oral or Written Comments and Revision of the Proposed Rules

The Board has not had a fee increase since 2000. Since each letter expressed concern about fees for the young dietitians, the Board voted to maintain the same rate for applications for Provisional LDNs (dietitians just starting out) at \$95. The Board voted to revise the proposed renewal fee from \$60 to \$80 annually and instead increase the late renewal fee to \$160. The Board also voted to include the revisions to the Code of Ethics that were effective June 1, 2018. Additionally, the Board voted to discontinue providing licensure ID cards, and create a newsletter to communicate with licensees. The Board will make the recommended edits to Section 101 on Telenutrition as suggested by Ms. Clare Miller.

Statement of the Principal Reasons For and Against Adoption of any Amendments or Changes Suggested

After reading and hearing the five licensees' concerns, the Board agreed to implement changes to the initial proposed revisions and operating procedures. Details delineated above.
